

Starlight Paradise Limited

Accessibility Statement

Effective July 16, 2026

1. Our Commitment

Starlight Paradise Limited believes every child should be able to enjoy the Star Paradise universe in the way that suits them. Inclusion is not an afterthought for us; it is part of how Star Paradise is designed, from the characters themselves to the formats we offer.

2. Built-In to Our Storytelling

Representation of different ways of experiencing the world is part of the Star Paradise cast itself, not a separate initiative. For example, several characters reflect real, specific ways children experience and process the world, written with care rather than as generic stand-ins.

- We offer optional musical adaptations of stories, so children who engage best through music or sound can enjoy the same stories as those who read them.
- We are mindful that age-appropriate language and emotionally safe content can look different for neurodiverse children, and we take this into account individually rather than assuming a one-size-fits-all standard.

3. Website Accessibility

We aim for the Star Paradise website to be usable by as many visitors as possible, including those using assistive technology. As our website and future interactive apps develop, we intend to work towards recognized accessibility guidelines such as the Web Content Accessibility Guidelines (WCAG).

4. Ongoing Work

Accessibility is an ongoing effort rather than a finished task. As new books, apps, and features are released, we will review them against this statement and make improvements where needed.

5. Feedback

If you or your child encounter an accessibility barrier anywhere on our website or in our books and apps, we want to know. Please contact us at info@slphk.com so we can look into it.

6. Review

This statement will be reviewed as the Star Paradise website, books, and apps develop.
