what is AI?

★ THE BIG IDEA ★

Think of AI like a super-fast, super-smart **digital library**.

It has read almost every book and looked at almost every picture on the internet! When you ask it a question, it uses everything it has learned to help you create something new.

★ THE SECRET ★

AI **doesn't "think"** like a human. It's more like a really powerful tool—like a **super-powered pencil**.

A pencil can draw, but it needs you to tell it what to create.

You are the Pilot; the AI is just the ship!

★ LUNA'S GOLDEN RULE ★

You are in charge.

Always think for yourself, check your facts, and never share personal information. We use AI to spark our own amazing ideas, not to replace them.

I have read almost every book and seen almost every picture
